President Joseph L. Fiordaliso
New Jersey Board of Public Utilities.
44 South Clinton Avenue, 10th Floor
P.O. Box 350
Trenton, NJ 08625-0350

Dear President Fiordaliso,

Please accept this correspondence as my formal request for you to call for a statewide meeting with Jersey Central Power & Light regarding their outdated infrastructure that is negatively impacting the lives of thousands of taxpayers throughout New Jersey.

As you are already aware, power outages are a common occurrence and a great inconvenience. What is troubling is that Jersey Central Power & Light does not have any method to discover power outages in their service areas and relies solely on individuals reporting after they have lost power.

With all of the great technological advances we enjoy today, this is appalling and, frankly, unacceptable.

The average electricity prices in New Jersey are typically among the top ten highest of the 50 states. Therefore, their level of service should also be held to a higher standard.

I hope you will join me in fighting for the residents and taxpayers of New Jersey by calling for Jersey Central Power & Light to meet with the Board of Public Utilities, County and State officials to discuss this matter and be held accountable for their service.

Thank you for your consideration of this request. I look forward to hearing from you.

Sincerely,

A handwritten signature in black ink that reads "Patrick Impreveduto".

Freeholder Patrick Impreveduto
